

JHG Sustainability Strategy

Jaz Go Green is an online sustainability programme with key features that enables hotel managers to innovate by charging them with focusing on the issues most critical in their areas and helping them tracking, analyzing and reporting their use of energy, carbon, water and wastes, thereby minimizing their overall environmental impact and utility costs.

This programme runs 2018 – 2028 targeting preserving the resources and minimizing the wastes.

Social Targets

Human Rights

- Embed human rights due diligence across our operation.
- Reduce barriers to labor market through offering work experience.
- Increase our investment in programmes that contribute to sustainable solutions and economic opportunity for all (women, persons with disabilities).

Social Engagement

- Increase the hours of volunteer service to support our company priorities and community engagement strategy.
- 100% of our hotels will have participated in community service activities.
- Track and report employee engagement each year.

Training

- Train employees at JHG hotels on relevant environmental and social issues and engage guests in supporting responsible travel in destination hot spots.

Supply Chain

- Increase ethical supplier awareness across corporate and hotel teams.
- Increase the percentage of JHG preferred suppliers that meet JHG green sustainable criteria.

Environmental Targets

Resources Preservation

- Reduce water consumption to reach 250 liter per guest per night.
- Reduce electricity consumption to reach 25 KW per guest per night.

CO2 Emission

- Reducing the CO2 emissions per guest per day to less than 15Kg.

Reducing Waste

- We are committed to eliminating single use plastic with all JHG hotels.
- Reducing food waste resulting from the over production.
- Invest in local, organic, or sustainable dining options.

Marine Biodiversity

- JHG contributes to the support of the protection and conservation of the coral reef, including supporting natural protected areas and areas of high biodiversity value.

Sustainability Certification

- 100% of JHG hotels to be certified with sustainable hotels (Green Star & Tui environmental championship)
